PROFESSIONAL EXPERIENCE

IT Support

Twins Faja Lmt

2020-2021

Provided IT support primarily focused on software applications, assisting staff and clients with troubleshooting and resolving software-related issues. Installed, configured, and maintained applications to ensure smooth daily operations. Guided users through software usage and best practices, delivering training

and support to improve productivity. Documented technical issues and solutions to streamline IT processes and enhance future support efficiency.

Web Developer & Instructor

New Horizons

2022 – 2024

Developed and maintained web applications, creating user-friendly interfaces and efficient back-end functionality. Worked with multiple programming languages and frameworks to deliver high-quality software solutions. Assisted in teaching web development concepts and best practices to students, providing guidance on coding, debugging, and application design. Collaborated with clients and learners to understand requirements and deliver practical solutions, while documenting processes to improve workflows and learning outcomes.

Web Developer & Instructor

Capriquota

2025 – Present

Develop and maintain web applications, creating responsive and user-friendly interfaces while implementing efficient back-end functionality. Teach web development concepts, programming languages, and best practices to students, guiding them through coding, debugging, and project development. Collaborate with learners and clients to understand requirements and deliver practical software solutions. Document processes and workflows to improve teaching and development efficiency.
